7.1.

There are two Mondays in May when people have the day off work or school and if we're lucky, we get to spend some time outdoors enjoying the spring sunshine. The first bank holiday in May is known as the May Day holiday and it's vaguely associated with workers' rights like in the case of Labour Day, although this is not expressly stated as the purpose of the day. The second bank holiday in May is known as the Spring Bank Holiday or the Late May Bank Holiday and this one is associated with the beginning of summer. And it always lands on the last Monday of May and often there's good weather.

7.2.

Today many people believe that it's impossible to solve many of the problems that we face.
